

Crow's Feet Caring Serum

with silk proteins and the special active substance Hydroxyproline

Mild intensive caring serum with silk proteins for the sensitive skin susceptible to wrinkles around the eyes. Thanks to the unique qualities of the silk proteins the caring serum binds itself at the skin's keratin and forms there a resistant, moisturizing protective film. Enriched with the special active substance hydroxyproline, which stimulates and protects the natural collagen fibers, the skin aging and wrinkling can be counteracted thereby. Crow's feet caring serum gives your skin a velvety effect, which you can immediately see and feel.

Apply in the morning and in the evening around the eyes and massage in lightly.

Ingredients: Aqua, Pentylene Glycol, Dipalmitoyl Hydroxyproline, Sericin, Ceratonia Siliqua Gum, Xanthan Gum, Glycerin, Hydrolyzed Wheat Gluten, PEG-40 Hydrogenated Castor Oil, Potassium Sorbate, Benzyl Alcohol, Sodium Dextran Sulfate, Ethylhexylglycerin, Phenoxyethanol, Citric Acid.
