

Herbal Deo Spray

With calendula and camomile
Free of aluminium

This herbal deo spray contains allantoin and the deodorising substance farnesol along with skin-calming calendula and camomile. In combination with a microbiome-friendly raw material, unpleasant odours are prevented. You will feel fresh and protected all day long with the combination of the long-lasting effect and mild care.

The deo spray should be left to dry well before dressing to avoid staining clothes.

Do not use if you are allergic to composite plants.
