

tierlieb Black Cumin Oil

Feed for horses and dogs

Useful information:

Tierlieb Black Cumin Oil is rich in unsaturated essential fatty acids, contains natural vitamin E and supplies energy. The cold-pressed oil from genuine black cumin (*Nigella sativa*) is characterised by its high natural content of valuable plant substances and essential oils. Due to these positive characteristics, black cumin oil has a long tradition, especially in Asia and North Africa.

In horses and dogs black cumin oil supports the coat and skin metabolism as well as the general physical condition by its high content of unsaturated fatty acids. The purely vegetable vitamin E in Tierlieb Black Cumin Oil has a high bioavailability, prevents a deficiency and thus contributes to the protection of the cells against oxidative stress.

Analytical contents: Crude fat 100 %, crude fibre 0 %.

Nutritional additive/kg: 6,700 mg natural vitamin E of vegetable origin.

Feed recommendation: Add the required quantity to the daily feed:

Small dogs: 5-10 drops (0.5 – 1 ml)

Medium-sized dogs: ½ teaspoon (1.5 ml)

Large dogs: 1 teaspoon (3 ml)

Depending on body size, horses should be administered ½-1 measuring cup (10-20 ml) per day.

Do not feed to pregnant animals. When taking medication or if the liver is impaired, black cumin oil should only be fed after consultation with the veterinarian.

For external use: Areas frequently attacked by parasites can be treated with black cumin oil externally by rubbing in several drops or spraying with a mixture of water and oil.

Keep dry and out of direct sunlight. Store below 25°C.
