

Orthopaedic Cushion

Enjoy sleep without any tenseness or pressure!

The orthopaedic cushion fully adapts to the shape of head and shoulders. This gives the neck optimum support, which reduces strain on the spine for relaxation and noticeably relieves the muscles. The ergonomic special filling made of visco-elastic foam has excellent warmth and moisture regulating properties as well as the function of pressureless adaptation. The anti-allergenic and dust mite protected cushion is a guarantee for comfort and the most relaxing night's sleep.
