

Vitamin-D3+K2 Drops

Nutritional supplement

Useful information: Vitamin D3, the so-called "sun vitamin" is essential for many vital functions. Amongst other things, it contributes to the maintenance of healthy bones, teeth and normal muscle function and plays a role in the function of the immune system. Vitamin D should always be combined with vitamin K2 (Menachinon-7, MK-7). Vitamin K2 supplements the beneficial effects of vitamin D by making some of the vitamin-activated proteins more usable. Additionally, it ensures that calcium is brought into the bones and does not form deposits in the arteries and blood vessels. Vitamin K contributes to the maintenance of normal bones and normal blood clotting.

For many users, vitamin D3+K2 drops are a particularly simple and pleasant method of taking these vitamins. They can be easily dosed from the practical pipette bottle.

Each drop contains 25 µg vitamin D3, which is equivalent to 1,000 I.U. and 20 µg vitamin K2.

Ingredients:

MCT Oil (Medium-Chain Triglycerides) (bulking agents), Olive Oil; Vitamin D3, Vitamin K2 (Menachinon-7, MK-7), antioxidant alpha-Tocopherol.

	per drop (=daily dose)	% of NRV recommended daily dose*	per 100 g drops
Vitamin D3	25 µg	500	103 mg
Vitamin K2	20 µg	27	82 mg

*NRV = Nutrient Reference Value for daily consumption according to Regulation (EU) No. 1169/2011

Recommended dose: take 1 drop per day.

Keep dry and out of direct sunlight. Store below 25°C.

Nutritional supplements should not be used as a replacement for a balanced, varied diet, and do not replace a healthy lifestyle. Keep out of reach of young children. Do not exceed the recommended daily dose.

Made in Germany

Contents 30 ml (= 1100 drops)
