

## Hay Fever Nasal Balsam

No paraffin

For hay fever sufferers, the nicest times of the year, spring and summer, are often the worst. The symptoms of hay fever are well-known: Running, swollen nose, agonising itching, sneezing, sensitivity to light and fatigue. The fact that even the area below the nose and the outer nostrils become red and irritated by frequent cleaning of the nose is one of the accompanying symptoms of hay fever. Hay fever nasal balsam forms a protective and long-lasting film, providing pleasant moisturisation and care.

**Ingredients:** Caprylic/Capric Triglyceride, Stearalkonium Hectorite, Propylene Carbonate.

**Application:** Simply apply a small amount to the area below the nose and outer nostrils. Very economical in use.

Do not store above 25° C.

Made in Germany
