

## **Stevia** with Rebaudioside A refill pack with 1.000 tablets

Stevia (*Stevia rebaudiana Bertoni*) is a plant that originates from Paraguay. Stevia owes its amazing sweetness, which highly exceeds that of normal sugar, the steviol glycosides which are in the leaves.

Stevia tablets are virtually calorie-free, does not influence the blood sugar level and are therefore suitable for diabetics. They can be used as sugar replacement in many ways.

**Ingredients:** Sweetener Sorbitol, Acidifier Mono Natrium Citrate, Sodium Hydrogen Carbonate, Sweetener Steviol Glycoside (12.9 %), Separating Agent Silicon Dioxide and Magnesium Stearate.

Table-top sweetener based on steviol glycosides and sorbitol.  
For food, limited use, with sweeteners.

Excessive consumption of Sorbitol (quantities over 10 g per day, this roughly corresponds to 280 tablets) can produce laxative effects.

**Dosage:** 1 stevia tablet roughly corresponds to 3 g sugar or 1 piece of cube sugar.

Store in a cool and dry place.

Made in Germany

**Contents 1000 tablets = 68 g**

Art. No. 456
