

## Stevia Tablets

Table-top sweetener based on steviol glycosides and sorbitol.  
refill pack with 2,500 tablets

Stevia (*Stevia rebaudiana Bertoni*) is a plant that originates from Paraguay. Stevia owes its amazing sweetness, which highly exceeds that of normal sugar, the steviol glycosides which are in the leaves. Stevia tablets are virtually calorie-free, does not influence the blood sugar level and are therefore suitable for diabetics. They can be used as sugar replacement in many ways.

**Ingredients:** Sorbitol Sweetener, Monosodium Citrate (acidifier), Sodium Hydrogen Carbonate, Steviolglycoside Sweetener from Stevia (12.9 %), Silicon Dioxide and Magnesium Stearate (separating agents).

For food, limited use, with sweeteners.

Sorbitol can have a laxative effect when used excessively (quantities from 10 g per day, corresponding with approx. 280 tablets).

**Dosage:** 1 stevia tablet is equivalent to about 3 g sugar or 1 sugar cube.

Store in a cool, dry place.

Made in Germany

**Contents 2,500 tablets = 173 g**

Art. No. 457
