

## Gluten-fit capsules

Nutritional supplement with prolyl oligopeptidase, calcium and vitamin B2  
To support the degradation of gluten

### Useful information:

Gluten or gluten protein is a collective term for a mixture of proteins that occurs naturally in numerous types of cereals and which gives dough in particular its elasticity and stability. However, due to its composition it is often hard to digest. The enzyme prolyl oligopeptidase used in our Gluten-fit capsules splits gluten into small fragments, which can then be digested easier by the body's own enzymes. The normal function of digestive enzymes is supported by calcium. In addition, vitamin B2 contributes to the maintenance of normal mucous membranes.

**Ingredients:** Filler microcrystalline cellulose, prolyl oligopeptidase, calcium carbonate, gelatine, filler maltodextrin, anti-caking agent silicon dioxide, vitamin B2.

	per capsule	per daily dose (=6 capsules)	% of NRV recommended daily dose**	per 100 g capsules
Prolyl oligopeptidase	100 mg (58 000 PPI*)	600 mg (348 000 PPI*)	***	23 g
Calcium	40 mg	240 mg	30	9 g
Vitamin B2	1 mg	6 mg	429	0.2 g

\*Protease Picomole International

\*\*NRV = Nutrient reference value for daily consumption according to regulation (EU) no. 1169/2011

\*\*\*no reference value available yet

### Recommended use:

Swallow 1-2 capsules 3 x daily before a meal with sufficient liquid.

Keep dry and out of direct sunlight. Store below 25°C. Nutritional supplements should not be used as a replacement for a balanced, varied diet, and do not replace a healthy lifestyle. Keep out of reach of young children. Do not exceed the recommended daily dose.

Not intended for the treatment of celiac disease.

Made in Germany

### Contents 90 capsules = 37 g

Art. No. 869
