

## Swiss Stone Pine Hand Cream

For velvety-soft, well cared-for hands.

This hand cream makes hands smooth and velvety soft. The refreshingly aromatic fir scent is completely natural: it comes exclusively from the genuine essential oil of the Swiss stone pine, also known as the arolla pine. Almond oil, shea butter and betaine provide your hands with soothing care and moisture. Soothing allantoin and panthenol help to care for fatigued and stressed skin.
