

## Firming Liposome Gel

Gel that helps firm skin in problem zones

With ivy liposomes and algae extracts. Stabilises the skin's moisture balance and makes it smooth and supple. Promotes localised blood circulation of the skin and activates natural skin functions.

**Application:** A quantity the size of a hazelnut is sufficient for application on problem zones (buttocks, stomach, hips, upper thighs). Apply the firming liposome gel mornings and evenings and massage in (if applicable with a brush) until no residues are left on the skin. Do not apply this circulation-stimulating gel to sensitive areas of skin such as the face.

**Ingredients:** Aqua, Pentylene Glycol, Propylene Glycol, Isostearyl Alcohol, Hedera Helix Leaf Extract, Ginkgo Biloba Leaf Extract, Pelvetia Canaliculata Extract, Urtica Dioica Leaf Extract, Lecithin, Vanillyl Butyl Ether, Sodium Carbomer, Glycerin, Sorbitol, Ethylcellulose, Xanthan Gum, Butylene Glycol Cocoate, Potassium Sorbate, Sodium Benzoate, Phenoxyethanol, Dehydroacetic Acid, Benzoic Acid, Sorbic Acid, Citric Acid.
