

Coconut Oil Hand Cream

Moisturising cream for intensive care
with real organic coconut oil

Our hands directly exposed to environmental influences such as the cold, heat, wind and weather. Therefore, they profit from targeted care. Coconut oil is considered a 'secret tip' ingredient: it is quickly absorbed into the skin, dispenses important protecting and nutrient substances, has a revitalizing effect and cares for the skin, leaving it velvety soft and supple. Natural moisturisers, adapted to the water-binding capacity of the skin, as well as proven care components such as shea butter, cocoa butter and soothing allantoin give you a soft, well-maintained skin feeling. Pleasant, fresh coconut scent.

Ingredients: Aqua, Cocos Nucifera Oil, Pentylene Glycol, Glycerin, Caprylic/Capric Triglyceride, Cetearyl Alcohol, Glyceryl Stearate Citrate, Sucrose Stearate, Hexylene Glycol, Butyrospermum Parkii Butter, Theobroma Cacao Seed Butter, Helianthus Annuus Seed Oil, Distarch Phosphate, Urea, Fructose, Glucose, Allantoin, Lecithin, Tocopherol, Ascorbyl Palmitate, Dextrin, Sucrose, Xanthan Gum, Aspartic Acid, Glutamic Acid, Alanine, Hydrogenated Palm Glycerides Citrate, Parfum.
