

## Pure Wild Rose Oil

The fine oil of the wild rose, *Rosa canina*, also known as the rose hip, is rich in polyunsaturated fatty acids which are absorbed by the skin particularly well and provide intensive care. Highly suitable for dry, flaky, mature skin and skin in need of care. Because of its anti-inflammatory properties, it is frequently used for skin care in the event of skin irritations, scars and widened veins (couperose). Fragrance-free.

**Ingredients:** Rosa Canina Fruit Oil, Tocopherol.
