

## Birch Ointment

Rich, gently nourishing, anti-inflammatory, antipruritic, healing ointment with birch bark extract, calendula oil, bisabolol and vitamin E. Birch bark has a long tradition in naturopathy because it is attributed positive effects on dry and damaged skin. In addition, they should be able to provide relief in psoriasis and eczema. Birch bark is also very suitable for the aftercare of closed burn wounds. In combination with bisabolol and vitamin E, it gives the skin soft and supple nourishment and prevents the skin from drying out.
