

Organic Assam "Hathikuli" TGFOP1

A pure Assam leaf black tea with a wonderfully balanced character from the "Hathikuli" tea garden. The fine, evenly-worked leaf produces a clear, brown cup of tea. Spicy, powerful, slightly malty tones dominate the taste, accompanied by a hint of finely acerbic woodland berry. The "Hathikuli" tea garden is one of the largest organically-cultivated gardens in Indian Assam. As a model organic tea garden, "Hathikuli" has been extensively certified both nationally and internationally.

Ingredients: 100 % "Hathikuli" black tea from controlled organic cultivation.

Preparation: Add 1 litre of boiling water to 3-4 tablespoons of tea (approx. 13 g) and leave to infuse for 2 to 3 minutes.

Close properly and store in a dry place.
