

## Sanct Bernhard Sport Isotonic Energy Drink Peach-Passion

Food supplement before and during high physical performance

### Good to know:

Already a fluid loss of 2% of body weight (1-2 l) leads to a drop in performance of about 20%. Therefore, a fast replenishment of lost liquid is important. The optimized composition of the Aktiv3 Isotonic Energy Drink out of short and medium chain carbohydrates provides the body with the necessary energy during the endurance phase. The added mineral nutrients replace the electrolytes excreted through perspiration. When observing the recommended use you get a nearly isotonic beverage that ensures a preferred intake of the contained substances. Lactose-free, gluten-free.

**Ingredients:** Maltodextrin, Sucrose, acidifier: Citric Acid, Calcium Lactate, Sodium Chloride, Tri-magnesium Citrate, Potassium Citrate, Flavor.

Average nutritional values	1 portion (= 500 ml)	1 litre of beverage	*/1 litre beverage

\*% of the recommended daily intake according to NRV (Nutrient reference value for the daily intake according to VO (EU) No. 1169/2011)

\*\* No reference value has yet been established

**Recommended intake:** Please dissolve according to the following instructions:

Measuring spoon (inlying) produces  
2¼ (ca. 36 g) 500 ml  
4½ (ca. 72 g) 1000 ml

To avoid clots please pour in the water first and then add the powder.

Within the last hour before the start of a competition or for example over an hour 500 ml of the beverage preparation should be drunk. During the sport activity we recommend to drink regularly of 150-200 ml every 15-20 minutes. Straight after the activity we recommend the usage of our regeneration drink.

Note for diabetics: 0.5 litre (ca. 36 g powder) of beverage is equal to 2.6 BE.

Keep out of direct sunlight. Store dry and not above 25°C.

Food supplements should not be used as a substitute for a varied and balanced diet and do not replace a healthy lifestyle.

Keep out of the reach of young children. The recommended daily dose should not be exceeded.

Made in Germany

**Contents 900 g powder** produces 25 portions (about 12.5 litre final beverage), 1 measuring spoon (inlying)

Art. No. 2511 Eti0124
