

Sanct Bernhard Sport Glucosamine Chondroitin Plus Drinking Powder

Dietary supplement with glucosamine, chondroitin, collagen hydrolysate (Fortigel®),
vitamin C, vitamin B and manganese

Good to know:

Glucosamine Chondroitin Plus Drinking Powder supplements the daily diet with vitamin C and manganese which are important for cartilage structure, flexibility and resilience of the joints, especially knees and hips. **Vitamin C** contributes to normal collagen formation, which is necessary for a healthy function of cartilage and bone. **Manganese** helps maintain healthy bones and connective tissue. Also recommended for athletes after season of training.

- **Glucosamine** and **Chondroitin** are essential components of cartilage and the cartilage tissue.
- **Collagen Hydrolysate** is of particular importance for the function of the joints, as the joint cartilage consists to about 70 percent of collagen. Collagen hydrolyzate (**Fortigel®**) is taken up by the body extraordinarily well.
- **Vitamin C** contributes to normal collagen formation, which is necessary for healthy function of cartilage and bone.
- **Manganese** contributes to the maintenance of normal bones and a normal formation of connective tissue.

People with impaired glucose tolerance or who take cumarin anticoagulants, should contact their doctor before the consumption.

Ingredients: Collagen Hydrolysate (71 %), Dextrose, **Glucosamine Sulfate (6 %) (from crustaceans)**, acidifier Citric Acid, Chondroitin Sulfate (2 %), Vitamin C, Orange Juice Concentrate, Maltodextrine, natural orange flavour, separating agent Silicia Dioxide, Mangansulfate, Vitamin B2.
