

Lactopro Capsules

Nutritional supplements with selected probiotic bacteria and zinc

Good to know:

Lactopro capsules contain probiotic lactic acid bacteria, which are only released once in the digestive tract and thus directly enter into the intestinal flora. Among other things, zinc is important for a functioning immune system and contributes to a normal acid-base balance, carbohydrate metabolism and fatty acid metabolism.

Ingredients: Filler malto dextrin, hydroxypropylmethyl cellulose, Inulin, lactic acid bacteria (Bifidobacterium bifidum, Bifidobacterium longum, Lactobacillus casei, Lactobacillus plantarum, Lactobacillus rhamnosus), zinc gluconate, gelling agent gellan, pectin, anti-caking agent silicon dioxide, magnesium stearate.

	per capsule	per daily dose (2 capsules)	% of the recommended daily requirement (NRV)*	per 100 g capsules
Zinc	0.75 mg	1.5 mg	15	0.2 g
Viable probiotic lactic acid bacteria	1x10 ⁹ CFU (= colony-forming units)	2x10 ⁹ CFU	**	251x10 ⁹ CFU

* NRV = Nutrient reference value for the daily intake according to VO (EU) No. 1169/2011

** No reference value has yet been established

Each Lactopro Capsule contains at least 1 billion (1x10⁹) viable lactic acid bacteria.

Directions: Take 2 capsules once daily before meals. The capsules should be swallowed whole with sufficient liquid.

After opening store in the fridge.

Dietary supplements should not be used as a substitute for a varied, healthy diet and do not replace a healthy lifestyle. Keep out of the reach of small children. The recommended daily dose should not be exceeded.

Made in Germany

Contents 120 capsules = 46 g
