

Organic Maple Syrup Grade C

Maple syrup is the sweet, thickened sap of Canadian maple trees. It is very well suited as a sugar or honey substitute and can be used to sweeten a wide variety of food and drinks - from breakfast and lunch to sweet desserts. The intensity and therefore quality of the syrup is generally expressed in 'grades'. In short, the longer the maple syrup matures, the darker it becomes and thus the stronger the flavour. Maple syrup grade C has a strong amber colour and an intense, spicy caramel flavour.

Ingredients: 100 % maple syrup from controlled organic cultivation.
