

Ribwort plant syrup

Useful information:

Non-alcoholic, tasty syrup with 15% ribwort extract and honey.

Ribwort, an inconspicuous wild plant that grows along roadsides and in meadows, contains mucilage as well as tannins, which act like a soothing, calming film over the mucous membranes in the mouth and throat. Ribwort syrup can be enjoyed pure, or in tea, yoghurt or cereals.

Ingredients: Water, agave syrup, ribwort extract (15%), honey (5%), preservative potassium sorbate, acidifier citric acid.

Average nutritional values	Per 100 ml
Calorific content	596 kJ/140 kcal
