

Green-lipped Mussel Balm

Warming and relaxing balm for the skin, muscles and joints

Contains a valuable extract from the flesh of the New Zealand greenlip mussel *Perna canaliculus*. Selected plant-based oils soothe your skin, making it soft and supple. When combined with a massage, the frankincense and wintergreen oils support the relaxing effect on the skin, muscles and joints. When applied, the balm has a slightly cooling effect, which then becomes a comforting warm sensation with benefits for the knees, hips, back and shoulders. Greenlip Mussel Balm has a pleasant aroma, is easy to apply and is fully absorbed by the skin.

Application: Apply Greenlip Mussel Balm to the skin, e. g. to the shoulders, arms, elbows, hips, legs, knees or back, and gently massage in.

Note: Not suitable for children under 6 years.

Do not use near the eyes, or to damaged skin or the mucus membrane. Thoroughly wash hands after rubbing balm in. The skin may turn red after application; this shows that the balm is working by increasing the circulation to the skin. The redness will generally fade away within 1 to 2 hours.
