Intestinal Regulator for Dogs

Probiotic nutritional supplement for the stabilisation of the physiological digestion

Useful information:

Intestinal regulator helps stabilise the digestion in case of disruption to the gastrointestinal tract and supports your dog after disease, worm treatments or course of antibiotics. The probiotic bacteria contained in the product supports the optimal digestion of food. Natural prebiotic components such as pectin and inulin promote a healthy composition of the intestinal flora. Valuable herbs gently support the bowels and the metabolism. Pollutants are absorbed by the mineral clinoptilolith and gently channeled out.

- Regulates the inner condition
- With intestinal flora stabiliser *Enterococcus faecium*
- Reduces unpleasant odours

Analytical contents: Crude protein 16.4 %, crude fat 5.5 %, crude ash 9.3 %, crude fibre 3.5 %.

Composition: Rice Starch, Linseed Cake, Yeasts, Inulin (from chicory roots) 10 %, Ground Herbs (Dandelion Root, Nettle Leaves), Apple Pomace, Apple Pectin 2 %.

Zootechnical additive per kg: *Enterococcus faecium* DSM 10663/NCIMB 10415 $3.5 \cdot 10^{11}$ KBE

Technological additive per kg: Clinoptilolith of sedimentary origin 50,000mg.

Feed recommendation:

Mix 1 teaspoon (approx. 3 g) per 10 kg of body weight each day into the feed. Maximum of 4 teaspoons per day. Administer for a period of up to four weeks if there is a risk of, during or after indigestion. It is recommended to seek the advice of a veterinarian before use or before extending the feeding period. Ensure a balanced composition of the daily ration.

Keep dry and out of direct sunlight. Store below 25°C.
