Omega 3 Sea Fish Oil Capsules

Nutritional supplement for dogs and cats

Useful information:

tierlieb Omega 3 Sea Fish Oil Capsules contain valuable oil from Atlantic and Pacific sea fish. This oil is characterised by its high levels of Omega 3 fatty acids eicosapentaenoic acid (EPA, 18 %) and docosahexaenoic acid (DHA, 12 %). These vital fatty acids are essential, and cannot be formed as part of natural metabolic processes. In particular during phases of increased requirement, EPA and DHA support normal, healthy lipid metabolic processes, which are then able to provide sufficient energy in all phases of life. During phases of growth, coat change and for elderly animals, a supplement with EPA and DHA is expedient for the supply of nutrients to the fur, heart and circulation.

- High natural EPA (18 %) and DHA (12 %) content
- A valuable supplement during growth and for elderly animals
- Essential nutrients for the heart, skin and the fur
- Easy dosage in capsule form

Composition: Natural Fish Oil (Atlantic and Pacific sea fish), Gelatine, Vegetable Glycerine.

Analytical contents: Crude fat 38.3 %, crude protein 17.9 %, crude fibre 0.7 %, crude ash 0.1 %.

	per kg	per capsule
Fish oil	746 g	500 mg
Total Omega 3	224 g	150 mg
EPA (eicosapentaenoic acid)	134 g	90 mg
DHA (docosahexaenoic acid)	90 g	60 mg
Vitamin E	5 g	3.4 mg
Metabolisable energy (ME)	22.3 MJ (5,337 kcal)	0.015 MJ (approx. 3.6 kcal)

Feed recommendation / day:

Dogs: 1-2 capsules per 10 kg body weight

Cats: 1 capsule

Double the quantity can be fed in case of an existing deficit or increased requirements. For a constant supply of essential Omega 3 fatty acids, the capsules can be distributed across the day or at every meal.

Keep dry and out of direct sunlight. Store below 25°C.
