

tierlieb **Eczema Oil** for Horses

Tierlieb Eczema Oil is a proven formula for the supporting care of eczema (dermatitis), itching and dry horse skin.

- Protection and care for stressed and irritated horse skin
- Premium, natural ingredients
- With soothing essential oils and chamomile

Composition: Evening primrose oil (*Oenothera Biennis*), jojoba oil (*Simmondsia Chinensis*), black cumin oil (*Nigella Sativa*), vitamin E acetate (Tocopherol), chamomile flower extract (*Chamomilla Recutita*), lavender oil (*Lavandula Angustifolia*), thyme oil (*Thymus Vulgaris*), tea tree oil (*Melaleuca Alternifolia*).

Application: Apply some oil by hand or with a sponge to the affected areas and rub it in. If skin is severely irritated, carefully dab the oil off. Do not use on open wounds or on the mucous membranes. Repeat application every 3-5 days. Adjust the frequency of application according to the occurrence of eczema or the season.

The oil also provides limited mechanical protection against small mosquitoes as their wings and nostrils become sticky. For this purpose, apply oil generously to sensitive areas such as the skin of the stomach or tail.

Contents 250 ml
