Salmon Oil for dogs and cats

Feed

Useful information: Salmon oil is a precious product of nature. It contains the important omega-3 unsaturated fatty acids EPA (eicosapentaenoic acid) and DHA (docosahexaenoic acid). In dogs and cats, EPA and DHA support a normal coat, skin metabolism and healthy development as well as the general physical condition. For dogs and cats of all ages, this salmon oil is a delicious and nutritious addition to their daily diet. The natural vitamin E it contains can prevent a deficiency and thus helps to protect the cells from oxygen radicals.

- Natural and rich
- Popular as a raw feeding supplement

Analytical contents: crude fat 99.5 %, crude fibre 0 %.
Metabolisable energy: 35.5 MJ/kg (924 kcal/100 ml).

Nutrient	Average content per kg*
Omega-3 fatty acids total	160 g
EPA (eicosapentaenoic acid)	26 g
DHA (docosahexaenoic acid)	32 g
α -linolenic acid	72 g
Vitamin E	1.3 g

*Natural products are subject to natural variations.

Feed recommendation:

Add the required quantity to the daily feed:
A single "pump" equals 1 teaspoon.

Small dogs: 1 teaspoon (2.5 ml)
Medium-sized dogs: 2 teaspoons (5 ml)
Large dogs: 3-4 teaspoons (10 ml)
Lactating bitches receive 2-3 times the amount.
Cats: ¼ teaspoon.

Oils can have a laxative effect when used excessively.

Keep cool, dry and out of direct sunlight.
