

Tierlieb „TummyFit“ Base Powder

Nutritional supplement for dogs and cats

Useful information:

It is not uncommon for dogs and cats to wolf down hard food components. During digestion, the stomach wall is protected by a mucous membrane. This barrier also protects the stomach from the hydrochloric acid found in gastric juice. The composition of the food can facilitate gentle digestion.

The Tierlieb TummyFit Base Powder contains plant-based, mucus-forming ingredients that provide easily digestible nutrients. As a supplement to daily food, it contributes to normal and gentle digestion.

- For gentle digestion
- Forms a protective mucous
- Neutralises excess stomach acid
- Supplies easy-to-digest energy
- Very good acceptance in dogs and cats

Composition: Pectin, maltodextrin, sodium bicarbonate, ground linseed cake, chamomile extract.

Analytical contents:

Crude protein 7.8 %, crude fat 1.0 %, crude fibre 0.4 %, crude ash 21.6 %.

Additive per kg: Amino acid L-Tryptophan 40,000 mg.

Feed recommendation:

Mix the specified amount into your pet's food at each main meal, but no more than twice a day. One level measuring spoon (MS) corresponds to 1.2 g.

	Per meal	Per day
Small dogs (5-15 kg)	1 MS (1.2 g)	2 MS
Medium-sized dogs (15-25 kg)	2 MS (2.4 g)	4 MS
Large dogs (> 25 kg)	3 MS (3.6 g)	6 MS
Cats and dogs (< 5 kg)	½ MS (0.6 g)	1 MS

Always provide fresh water.

Once opened, close and store out of the reach of animals and children. In case of stomach complaints or if taking veterinary medicines, seek the advice of a veterinarian before feeding.

Keep cool, dry and out of direct sunlight.
