

## Strong Hair Anagen Capsules

Food supplement containing pea sprout extract,  
green tea and vitamins and minerals  
vegan

**Useful information:** For voluminous, strong, well-groomed hair, you need a healthy scalp, which supplies the hair follicles, i.e. the structures that are located around the hair root and anchor the hair to the skin, with crucial vitamins and nutrients. Biotin, selenium and zinc play an important role, especially in the phase of active hair formation, known in expert circles as the anagen phase, because they have been proven to help maintain healthy, normal hair. While copper contributes to hair pigmentation, iron and folate take on functions in cell division, i.e. hair growth. An innovative ingredient based on pea sprout extract (AnaGain™) was able to demonstrate its characteristic properties in a clinical study.

**Ingredients:** Microcrystalline Cellulose (bulking agent), Hydroxypropyl Methylcellulose, Green Tea Extract (12%), Pea Sprout Extract (12%), Isomalt (bulking agent), Zinc Gluconate, Iron (II) Gluconate, Copper Gluconate, Maltodextrin, Silicon Dioxide (separating agent), Folic Acid, Biotin, Sodium Selenite.
