

Tissue Firming Balm

A High-quality cream-balm for after dieting,
for stretch marks and cellulitis.

Contains a skin-firming substance from microalgae. Horsetail, Ivy and Ginkgo extract leave the skin feeling soft, smooth and supple. Provides moisture, supports the treatment of cellulite and reduces stretch marks. The active ingredient of seaweed base has an immediate tightening effect and at the same time strengthens long-term connective tissue of skin.

Application: Rub Balm for Tissue Tightening 2 times a day into the affected area.

Ingredients: Aqua, Cetearyl Alcohol, Sorbitol, Isopropyl Palmitate, Caprylic/Capric Triglyceride, Propylene Glycol, Simmondsia Chinensis Seed Oil, Sodium Cetearyl Sulfate, Pullulan, Nannochloropsis Oculata Extract, Equisetum Arvense Extract, Ginkgo Biloba Leaf Extract, Hedera Helix Leaf Extract, Potato Starch Modified, Pentylene Glycol, Phenoxyethanol, Citric Acid, Benzoic Acid, Sodium Hydroxide, Dehydroacetic Acid, BHT, Parfum (Hexyl Cinnamal, Linalool).
