

## Depilatory Cream

gentle and nurturing

For gentle hair removal with nurturing jojoba and marigold oil. Especially developed for sensitive skin. Removes disturbing body hair on legs, armpits or in the face simply and fast. The natural substances bisabolol and vitamin E operate anti-inflammatory and soothe redness and irritations. Urea is an essential part of the natural moisturizing factors of the skin and is therefore ideal for the care of dry skin. Agents of marigold minimize the inflammatory risk. Jojoba oil regulates the moisture and thus the acid protective layer of the skin.

**Ingredients:** Aqua, Calcium Thioglycolate Hydroxide, Propylene Glycol, Cetearyl Alcohol, Urea, Glycine Soja Oil, Simmondsia Chinensis Seed Oil, Cetareth-20, Calendula Officinalis Flower Extract, Bisabolol, Tocopheryl Acetate, Sodium Cetearyl Sulfate, Sodium Hydroxide, Sodium Phytate, Tocopherol, Parfum.

Do not use this product if you are allergic to the Asteraceae (daisy) family.

### Usage:

- dampen the skin
- apply the depilatory cream directly to the skin by using the spatula and space it out evenly so that all the hair is covered
- after an application time of about 5 min check if the hair can already be removed
- if the hair can be removed easily, remove the remaining cream with the spatula. Extremely strong hair need a longer application time of 10-20 minutes - however, in order to avoid skin irritation in total no longer than 20 minutes
- rinse off with clear water and wipe it dry

### Note:

- When using for the first time we recommend making a skin test by applying the cream on a small area of the body region to be depilated. If no irritations appear after 24 hours you can execute the depilation.
- The depilatory cream must not be applied on irritated or inflamed skin and have to be kept away from mucous membranes and eyes.
- After the depilation we recommend to not use any deodorants, perfumes or lotions containing alcohol for 12 hours as they can cause irritations.
- Contains salts of the thioglycolic acid and alkali.
- Keep out of the reach of children. Avoid contact with eyes. Risk of blindness! In case of eye contact immediately flush out with plenty of water and contact a doctor.
