

Swiss Stone Pine Balm

For the soothing care of neck, muscles and joints.

This balm with genuine Swiss stone pine oil nourishes the skin, provides moisture and gives a pleasantly relaxed feeling. The essential oil of the alpine Swiss stone pine, also known as Zirbe, smells wonderfully spicy and is often perceived to be calming and sleep-inducing. Jojoba oil, avocado oil, arnica oil and panthenol complement the nourishment perfectly. A gentle massage with Swiss stone pine balm relaxes pleasantly, especially in the area of the neck, muscles and joints. In the cold season, rubbing it into the chest clears and relieves the airways.
