## Intimate Cleansing Lotion

For gentle cleansing of the external intimate area

Mild, soap-free wash lotion for daily, gentle cleansing of the external intimate area. The skin here is particularly sensitive to alkaline soaps or shower gels. Incorrect hygiene often results in itching, skin irritations and infections caused by fungi and bacteria. We have developed our intimate washing lotion especially for the special needs of the skin in these areas. The extra-mild, foamy-creamy formula contains aloe vera, chamomile extract, a lipogenous and moisturising agent as well as the special natural extract SyriCalm™. This strengthens the skin's barrier function, soothes skin irritations and helps sensitive skin to maintain its natural balance. Suitable for daily use, also during menstruation.
