

Hydro-Voice-Lozenges

With tooth-friendly xylitol

Useful information:

You know the feeling of always having to clear your throat during a conversation?

No wonder that with an average of 16,000 spoken words per day, the vocal chords have to be oiled every now and again.

And so we developed our Hydro-Voice-Lozenges.

The contained hydrogel complex with hyaluronic acid and xanthan lays itself like a protective film on the mucous membranes and vocal cords, which are intensively moistened. The flow of saliva is stimulated by the pleasant acid, which additionally protects the mucous membranes of the mouth and throat from drying out, so that you are no longer plagued by lumps in your throat. Hydro-Voice-Lozenges are the perfect everyday companion, even for frequent speakers and singers. With tasty elderberry flavour.

Ingredients: Sweetener Xylitol, Sorbitol; acidifier Monosodium Citrate, Hyaluronic Acid (8%), thickening agent Xanthan, Natural Flavouring, separating agent Magnesium Stearate, Silicon Dioxide.

Average nutritional values	per 100 g
Calorific content	941 kJ/198 kcal
Fat	1 g
- of which saturated fatty acids	0 g
Carbohydrate	83 g
- of which sugars	0 g
