

Immuno-complex drink bottles

Dietary supplement to support
the immune system

Good to know:

The immune system is one of the most remarkable systems in the human body.

An intact immune system consists of a complex network of specialized cells and molecules, which protect the body against 'invaders', such as bacteria and viruses. For that purpose it has a vast army of defenders which are produced in a complex process. In order to stay healthy, vitalised and active, the immune system needs a variety of micronutrients, vitamins and trace elements. Immuno-complex drink bottles contain a carefully formulated selection of these nutrients. They contain essential vitamins and trace minerals such as vitamin C, vitamin B6, vitamin A, vitamin D and zinc, which have been proven to have beneficial effects on the healthy and normal functioning of the immune system. The trace element chromium contributes to a normal metabolism of macro nutrients.

Enjoyable fruity-sour taste.

Recommended use:

- Drink 1 bottle with white cap daily from Monday to Friday.
- Drink 1 bottle with blue cap on Saturday or Sunday.

Immuno-complex drink bottles are not recommended for pregnant women, children and adolescents under 17 years of age.

Food supplements should not be used as a substitute for a varied and balanced diet and do not replace a healthy lifestyle. Keep out of the reach of small children. The recommended daily dose should not be exceeded.

Shake well before use! Store below 25 ° C.

Ingredients drink bottles "white" (Monday – Friday):

Aqua, Orange Juice concentrate, Mango Puree, Honey, Vitamin C, Zinc Gluconate, preserving agent Potassium Sorbate, thickener Xanthan, Chrome-(III)- Chloride, Vitamin B6 Hydro-chloride.

Average nutritional information	per drink bottle = daily dose	% of NRV recommended daily dose*	per 100 g
calorific content	13 kJ/56 kcal	-	62 kJ/266 kcal
fat	0 g	-	0 g
carbohydrate	3.4 g	-	16 g
- of which is sugar	2.6 g	-	12 g
protein	0.1 g	-	0.5 g
salt	0 g	-	0 g
Vitamin C	500 mg	625	2 g
