101 Herb Oil

Contains citral, citronellol, eugenol, geraniol, limonene, linalool and cinnamal.

Bioactive, herb-rich functional oil with the vital force of 101 essential oils. Natural herb oil concentrate, produced from herbs, roots, berries and other plant components.

Application examples:
For healthy body care, for general refreshment, for the removal of troublesome perspiration odours: apply for example by rubbing 2-4 drops of 101 Herb Oil onto the chest, front and back of neck, back, arms, legs and feet in the morning after washing or in the evening before going to bed.
Should you feel fatigued or exhausted, rub 2-4 drops of 101 Herb Oil onto the forehead, temples, scalp and back of neck. Refreshes and revitalises.
Prior to physical activity, and prior to walks and mountain hikes, massage the arms, thighs, calves and feet the evening before with several drops of 101 Herb Oil, and repeat the procedure after physical activity or after hiking.
To care for the feet, in particular in case of burning or stabbing pain in the feet, a feeling of heaviness or troublesome foot odour, add some drops of 101 Herb Oil into a foot bath.
Massage with 101 Herb Oil mixed with a little vegetable oil or neutral care oil. Recommended after every bath, after showers and after physical exertion.
For dental and oral care, above all against bad breath. Add 2 drops of 101 Herb Oil to the mouth rinsing water to refresh the entire mouth cavity and give you fresh breath.

For external application only. Avoid contact with eyes and do not apply undiluted to mucous membranes. Not for children under 6 years of age.
Keep out of reach of children. Because essential oils and perfumed oils increase the sensitivity of the skin to light, do not visit a solarium or sit in direct sunlight after application!
