

Stevia Powdered Sweetener

Table sweetener based on steviol glycosides (Rebaudioside A) from Stevia

Stevia (*Stevia rebaudiana Bertoni*) also called sweet leaf or honey leaf, is a plant that originates from Paraguay. Its amazing sweetness incredible sweetening power which exceeds that of ordinary sugar several times. The steviol glycosides found in the leaves of the stevia plant are responsible for the sweet taste. Due to the content of at least 97% rebaudioside A, the steviol glycoside with the purest, sweetest flavor, Stevia Powdered Sweetener can be dosed very sparingly. Stevia Powdered Sweetener is virtually calorie free and has no effect on blood sugar levels and is therefore suitable for diabetics. It can be used as a versatile sugar substitute for baking and cooking.

Ingredients: 100% Steviol Glycosides from Stevia, of which are at least 97% Rebaudioside A.

Dosage: 1 level measuring spoon (contained) corresponds up to 27 g sugar or 9 cubes of sugar.

For food, limited use, with sweetener.

Contents 50 g
