

Anti-Aging SB 500 Cream

Anti-aging complex with retinol, coenzyme Q10, vitamin C and vitamin E, combined with milk lipids and ceramides, in a soothing cream base with jojoba oil.

Vitamin A, also known as retinol, is one of the most effective active anti-aging components when it comes to combating wrinkles. Vitamin E repels free radicals and supports the effect of the retinol. Milk lipids and ceramides resemble the central components of the epidermis which is why they can slow down the skin's ageing process and give a pleasant sensation on the skin.

When combined with coenzyme Q10, the active anti-aging components effectively counteract the causes of premature aging of the skin, provide natural moisture, and lend your skin a smoother, more youthful complexion.

Ingredients: Aqua, Cetearyl Alcohol, Pentylene Glycol, Simmondsia Chinensis Seed Oil, Isopropyl Palmitate, Glyceryl Stearate, Tocopheryl Acetate, Mel, Stearic Acid, Brassica Oleracea Italica Seed Oil, Palmitic Acid, Sodium Cetearyl Sulfate, Ubiquinone, Lactis Lipida, Ceramide NP, Phytosphingosine, Glycine Soja Oil, Retinol, Lecithin, Sodium Ascorbyl Phosphate, Glycerin, Polysorbate 20, Alcohol, Disodium Phosphate, Chlorhexidine Digluconate, Lactic Acid, BHT, Xanthan Gum, Potassium Phosphate, Parfum (Hexyl Cinnamal, Alpha-Isomethyl Ionone, Geraniol).
